TITLE : COLORANT FOR LYMPH SYSTEM

ABSTRACT : PURPOSE: A colorant for the lymph system having improved coloring effect and safety, comprising Indocyanine Green.

CONSTITUTION: Indocyanine Green or its aqueous solution is used as a lymphatic colorant in a dose of preferably 1 ml based on 1 a 0.5% aqueous solution. The colorant is preferably injected into the peripheral subcutaneous site, into the muscle or under the serous membrane for contrast media or coloring of the lymph system in operation of cancer. The colorant is better than the conventional Evans blue.
